Happy Summer Season Members,

Well, here we go. Splashdown is complete and we are fully into the 2011 BMDCC Summer Season. Be on the lookout for the following events:

- New Member Party**
- BUNCO / Texas Hold 'Em Nights**
- Bar Nights**
- Luau / Seafood Fest**
- And much more.**

Just a quick reminder that the club does have rules to be followed for everyone's safety and enjoyment. I would suggest that you each re-familiarize yourself with the operating rules, particularly as they pertain to glass at the Club and usage of the Club by guests.

That's it from me on this very short message. Now go hit a tennis ball, get wet or have a drink. Whichever you choose, have a great time at your Club and a great summer.

Retirement Income - Retirement Puzzle

Planning your retirement income is like putting together a puzzle with many different pieces. One of the first steps in the process is to identify all potential income sources and estimate how much you can expect each one to provide. One of the challenges of investing during retirement is providing for annual income while balancing that need with other considerations, such as liquidity, how long you need your funds to last, your risk tolerance, and anticipated rates of return for various types of investments.

Retirement income may be generated from many sources such as social security, pensions, dividends, interest, and annuities. While a well throughout retirement plan may include a combination of these income options, we are focusing our attention in this article on annuities with guarantee income benefits.

Annuities are designed to be both a savings vehicle and a source of retirement income. They offer a number of choices for you to help grow and preserve your income in a way that best meets your needs. With life expectancy growing each year, receiving an income stream for as long as you live is an important consideration. The lifetime income stream, guaranteed by an insurance company, is a valuable benefit that only an annuity can provide. Due to growing demand for additional income options, some issuers are offering a rider, called a guaranteed lifetime withdrawal benefit*, to annuities that allows you to receive lifetime income payments while continuing to have access to the annuity's remaining cash value. Guaranteed living benefits can help protect your stream of income during downturns in the market, which may be an attractive option to risk-averse individuals.
